

MAKING BUSINESSES FUTURE-READY

Technology support is in our DNA and we live and breathe it

CSS Corp is the global leader in technology support. Over 140 clients, including Fortune 1000 enterprises, count on our expertise in supporting enterprise and consumer products, managing IT infrastructures (stand-alone, cloud or mobile-enabled), and deploying networks.

Technology support is in our DNA. With over 5,500 technology professionals across 13 locations globally, we have a rich heritage of managing large and complex support ecosystems. From home devices, be it enterprise or consumer, data centers, applications and desktops, we have built our reputation on delivering stellar customer experiences. Because we chart the right support strategy, deploy the right processes and technology to enable it, and then execute impeccably – every day and in every interaction. Because we are wired to support.

OUR VISION

Be the global leader in tech support to offer enhanced businessvalue to our clients

Service Offerings

Today, the only way to thrive in this disruptive landscape is to stay clear of competition. This needs the help and support of a partner who has exemplary skills to merge, integrate and manage these disruption and provide you that much needed leverage for your businesses and growth. Being wired to support, we understand your business ecosystem like no other and have service aligned towards your business goals.

Executive focus on client business

The leadership team at CSS Corp is closely connected with your executive leadership and deeply involved in your business. Every client relationship for us has a long term perspective, ensuring complete alignment to your business goals and strategic objectives. Our services closely collaborate with these goals, contributing to your business success.

Delivering superlative customer experience

Built with insights from over a billion transactions, the CSS Corp Active Delivery framework™ creates a strong linkage with the nature of transactions and end-user satisfaction metrics. A strong pedigree of IP and tools from CSS Corp Innovation Labs, in the areas of InfraSupport (mobile and cloud), social media and analytics woven into every transaction, ensures delivery of actionable insights in every customer interaction.

Predictable support

According to a leading global management consulting firm, CSS Corp is among the top five tech support companies globally. In addition to the traditional tech support stack, we also provide InfraSupport solutions to over 50% of our client base. With more than a decade of experience with some of the largest OEMs and ISVs worldwide, CSS Corp provides premium technology services that are hardware / software agnostic, on connected platforms and devices.

Getting your business future-ready

The industry is currently in its next wave of transformation with focus on multi-channel support to end customers. CSS Corp has invested in four key areas – cloud, mobility, social media and analytics to help enterprises capitalize on new opportunities. With our offering in the above areas, CSS Corp is able to create an agile IT environment, which gives our customers a significant market advantage.

Future @ work

CSS Corp University designs and develops curriculum that shapes future-ready talent across new and emerging technologies. With a talent pool of more than 5500+ employees across 13 delivery locations, providing 24/7 support in 17 languages, CSS Corp serves you in the region and language of your choice.

Building a sustainable tomorrow

CSS Corp Foundation has a three pronged charter that encompasses e-waste, management, community development and wildlife conservation. Our strong employee and IT practices are designed to promote a sustainable environment and help reduce carbon footprint.
